

## From our Founder

*I can remember clear as day the first time I caught a wave. It was an indescribable experience that changed my life forever.*

*Still 25 years later, I am in search of the perfect wave and feel blessed to be an ambassador for the conservation of the world's oceans.*

*I personally invite you to come meet other people from all over the world and "sea life" differently. You will enjoy a safe, unique, and fun summer adventure that you will always remember.*

Pura Vida,

*Rick Civelli*
