24/7 Professionally Monitored

Voice Activated

No Wearable Devices

" Companion is great! My daughters wanted me to start wearing a medical alert pendant. I told them both that I love them -- but absolutely NO WAY would I wear one of those. That's when we found Companion which is completely voice activated."

Margie C.

COMPANION
CALL FOR HELP

ABOUT COMPANION CALL FOR HELP

Protecting more than 140,000 families, 24/7. The team at Companion have 25+ years of experience and are 5 Diamond Rated by CSAA, A+ Rated by the Better Business Bureau. Our solutions are rigorously tested and UL Certified to give you and your loved ones the peace of mind you deserve. Companion provides the feeling and reality of security at home. With a simple voice command, they'll quickly be connected to our Response Center for assistance.

No other medical alert system can give your loved one this level of freedom.

COMPANION
CALL FOR HELP

voice activated
personal emergency response system

FREEDOM FOR YOU.

"As soon as we realized you don't have to wear one of those ugly pendants with the big red panic button, we knew 'This was it!'"
- Pete & Mary F.

- Always on 24/7.
- Nothing for you to wear or recharge - ever.
- Alexa hears your voice anywhere at home or with the mobile app.

It's Invisible

With Companion's "invisibility", you can use it both at home & when you're outside. You blend in with everyone else who has a smartphone or Alexa unit...so no more stigma of wearing a pendant or alarm! Also, you get the peace of mind that help is always nearby.

It's Customizable

With Companion, you decide on different responses for different scenarios. For example, if you've locked your keys inside, a neighbor can be alerted. If you are injured by a fall, EMS can be contacted.

ALEXA, CALL
FOR HELP!

Connecting you to
help right away!

"Love it! We are so grateful to Companion. You solved our worry of Mom living at home alone. Such an amazing service!"
- Blade F.

PEACE OF MIND FOR FAMILY.

"Thank you, Companion! I was worried about Mom living alone, but not anymore! She loves it, and we know she is protected." - Barbara B.

Our Companion is truly that...
it goes everywhere they go!

It can be used at home or using the mobile app that can be uploaded onto their smart phone. Allowing all the freedom that your loved one craves while giving you the peace of mind that they are never without help.

Want a daily check-in? Alexa can be setup to have your loved one check in with her & send you an alert!

"I wonder if Mom's
okay?"

Mom just checked
in for the day!

ASSISTANCE FOR CAREGIVERS.

Healthcare Payers • Healthcare Providers • Assisted Living
In-Home Care Providers • Family Care Givers

Providing individuals with consistent, reliable & convenient access to help makes real sense for those on the front lines of healthcare.

Partner with Companion & you'll become a more trusted partner to your patients or clients, as they're more likely to see their health improve and health insurance claims decrease.

Companion Mobile

Android or iPhone?

Companion works with either.

Make any Smart Phone a
Voice Activated Medical Alert.

Now you can unlock your phone and auto-dial for emergency help (hands-free) from up to 25 feet away. All with just the sound of your voice. Just say, "Call for Help" to connect instantly.

To Schedule a Demo, visit companionhelp.com or call us 24/7 at (800) 210-1783
